6. Where have you been?

To France. Why?

To work in a factory. Do you enjoy it?

Yes, I do. I like meeting new people and learning new skills.

Have you made many friends?

Yes, I have made a few good friends. They have been great to work with.

What do you like most about working in a factory?

I like the fast pace and the challenge of working with machinery.

Dear Dr. Smith,

I would like to express my sincere gratitude for your kind offer. I am very pleased to hear that you are able to assist me with my research on the history of the city.

I have been conducting research on the city's history for several years and have made significant progress. I am particularly interested in the role of the church in shaping the city's identity. I believe that a comprehensive understanding of this topic is crucial for a deeper appreciation of the city's cultural heritage.

I would be honored to work with you on this project and would like to discuss the potential areas of collaboration. I am confident that our combined efforts will yield valuable insights.

Thank you again for your generous offer. I look forward to hearing from you soon.

Sincerely,

[Signature]
