Just the same for publication.

I understand the proposition is  
not yet definite. I hope to see  
you in Zurich in all our best  
days and wish you all well as  
1905 has my first proposal was  
published. I am all the same  
regarding my new place  
in the future. I will try to  
write you as much as I can  
on the first of the year.

With kindest regards,  
Ludwig Wittgenstein
